

THE A.R.K. REPORT™

SECRET FOR THE CENTURY

A Moskoff-Media (Israel) Film, in conjunction with Hoffman Productions

In a frightening world where global terrorism is advancing and geopolitical unrest is spreading, western civilization must wake up and establish a new world order... or face terrifying consequences. Fortunately, there is a way to accomplish this goal...

Finding the ARK will transform our existence, both within and without.

For the past two decades, Canadian-Israeli research professor, Harry Moskoff has been in search of the sacred ARK. Now, for the first time, Moskoff is sharing his findings as a compelling, action-packed sci-fi movie that is based on his years of research as well as true events.

The A.R.K. Report – Secret for the Century is an inspiring film that will broaden our horizons, revealing the underlying dangers that the world faces unless we, as a society, soon begin the search for true meaning, as represented by the ARK. Shot and directed in stunning film-noir style by Shmuel Hoffman, this 30-minute feature/short is family friendly.

In a bleak future where the Naarym child army has crushed nearly the entire world, can young Karmi help a secret government agency find the long-lost Ark and unlock the ancient mysteries that can save humanity before it's too late?

The secret location of a most precious and powerful treasure is finally unearthed: a relic which has sat silently, hidden from mankind for over 2,700 years. How far would you go to attain it - knowing that in your hands it could possess the power to bring everlasting world peace and bring a new age, but that in the wrong hands it could incite horrific warfare such as the world has never known?

The **A.R.K. Report** mixes a stirring sci-fi storyline spanning generations, ancient symbols and texts, as well as real-life interviews with today's most reputable authorities in archaeology, law and politics. This timely intriguing feature film (short) exposes a novel theory as to the approximate location of the Ark and the sometimes bizarre obstacles which have prohibited serious exploration for years.

Discover for yourself why so many are feeling the intrigue in recovering this historical treasure once and for all. Let **The A.R.K. Report** unveil how the ARK is so much more than a perpetual curiosity, and how it just might play a crucial role in determining the fate of mankind.

The European screening and Premiere/Debut of **The A.R.K. Report** is scheduled to be at the international Monte Carlo Film Festival (MCFF) during May 2013 in Monaco.
